

## SUGAR-FREE SWEETENERS

# SUGAR-FREE SWEETENER FOR CROISSANTS

POLYOL AND ACESULFAME-K BASED  
WITH NO ADDED SUGARS, GLUTEN-FREE AND WEIGHT 1:1

1000g e

2.3 kcal/g

### FOR PREPARING CROISSANTS DOUGH

POLYOL AND ACESULFAME-K BASED

With 40% less calories than sugar, DAYELET CROISSANTS is a modern formula of low-calorie carbohydrates and intense sweeteners which substitutes sugar in a 100% of its weight. It is used for making all types of croissants. It provides the same taste and texture than sugar. It substitutes sugar on a 'weight to weight' basis in any recipe without the need of modifying the rest of the ingredients or the elaboration processes.

### SUGAR-FREE, GLUTEN-FREE, EGG-FREE, LACTOSE-FREE, SOY-FREE, FRUCTOSE-FREE, CHOLESTEROL-FREE AND SALT-FREE.

Easy substitution on a 'weight to weight' basis (1:1). It is not necessary to modify the ingredients or the weight in the original recipe. It provides the same texture and sweetness of sugar. It allows freezing and defrosting dough before baking. The fermentation processes always will be somewhat longer due to the absence of sugar. It provides calorie reduction and low glycemic index.

#### THIS PRODUCT IS:

sugar-free, gluten-free, lactose-free, egg-free, soy-free, fructose-free, cholesterol-free and salt-free.

#### IT IS ALSO SUITABLE FOR:

diabetics, coeliacs, vegetarians, vegans, and for people following weight control diets.

#### COMPOSITION:

lactitol, isomalt, vegetable fibre, potato maltodextrin, tapioca starch, emulsifier E471 and sweeteners: acesulfame-k and neohesperidine.

#### NUTRITION INFORMATION PER 100g:

230 kcal/100g. Carbohydrates: 96% (50% of them are polyols). Other hydrates: 4%. Nutritional fibres: 46%. Fat: 1% (Saturated fat: 0,9%). Protein: 0%. Sodium: 0%.

'Excessive consumption may cause a laxative effect'.

LOW Glycemic index = 15
